### Farm Bill 2023 in Progress

We all can provide input to those writing the new farm bill. A quick internet search of “2023 Farm Bill Feedback” and the link to [house.gov](https://www.house.gov) will take you to a House Committee on Agriculture survey. It includes questions like what is performing well in the past bill and what could be improved upon. Not to turn you all into lobbyists, but I believe that the people in Washington could benefit from hearing about problems and solutions from those living in our communities and taking care of the land.
